

HELPFUL INFORMATION

SAFETY AND SECURITY

SCREENING

We believe that part of our stewardship responsibility includes the safety and security of your child. Everyone who works with children at Morningside Baptist Church including staff and volunteers is screened through Protect My Ministry and is required to complete training every three years.

CHECK IN

The security of your child involves your participation in our check-in procedures. Children nursery through grade 5 need to be checked in and checked out of our ministries.

We use a claim check to make sure that your child is only picked up by someone you have authorized. If you need someone else to pick up your child for you, that person must have the correct claim check.

SAFETY

We have monitored video cameras located throughout all of the children's areas, and we provide two-deep leadership during all activities. During our services, Gatewatchers security monitor the children's areas. We also have medically trained personnel on hand to contact in a health emergency.
